AUDIT FINDINGS

Narrative:

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-audit, on-site audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The audit of the Lake Region Correctional Facility (LRCF) was conducted on June 4 and 5, 2020 by Candy Snyder, a certified PREA Auditor and Mark Snyder, an auditing assistant. The LRCF is a 105-bed facility that houses both male and female incarcerated adults. At the start of the audit the population was 80 inmates – 69 males and 11 females. The facility maintains active contractual agreements with the Federal Bureau of Prisons, the US Marshall's and the North Dakota Department of Corrections and Rehabilitation. Those agencies also inspect the LRCF on a continuous basis. The LRCF is one of six justice organizations operating under the shared resources of the Lake Region Law Enforcement Center (LRLEC). In addition to the LRCF, the same building houses the 911 dispatch center, the Lake Region Community Service offices, the Ramsey County Sheriff's office, and the Devils Lake Police Department. Another building within close proximity houses the Lake Region Residential Reentry Centre (RRC).

Prior to arrival at the LRCF the auditor reviewed pertinent policies, procedures, and related documentation used to demonstrate compliance with PREA standards. The on-site portion of the audit began with an entrance briefing with the purpose of organizing the audit schedule. The meeting was attended by Rob Johnson, the Director, Captain Dan Kraft, PREA Coordinator Deidra Brokke and Residential Reentry Center Operations Manager, Joe Saul. Captain Kraft provided the auditor with a roster of staff and a roster of inmates.

The Director and the PREA Coordinator led a tour of the LRCF. The areas toured were a total of 17 housing units to include both male and female units, administrative areas and any inmate work areas such as the laundry and kitchen. During the tour the auditor informally questioned staff to gain better understanding of the facilities standard operating procedures.

The interview portion of the audit then began. The auditor interviewed the Director, Rob Johnson, Captain Kraft who is the senior administrator of the jail, the PREA Coordinator, the nurse, and the outside criminal investigator from the Devils Lake Police Department. The LRCF has sixteen security staff. There are three security staff on each shift. The audit team interviewed all staff on shift for the two days we were present for a total of ten staff interviews. These staff have been with the LRCF from several months to several years. The audit team interviewed sixteen randomly selected inmates from a roster with specific characteristics in mind to include all housing areas and varying lengths of stay. There were no inmates who identified as lesbian, gay or bisexual; no inmates that identified as transgender or intersex; there were no inmates who needed translation services or other disability related services; and there were no inmates who had been involved in a facility investigation. There were no inmates who requested to speak with the auditor.

Finally, the auditor completed a review of all pertinent policies, records, and documents. The auditor randomly selected personnel files for review of criminal records checks, applications and reference checks with previous institutional employers. The auditor reviewed signed staff training records, inmate records acknowledging receipt of PREA training, and investigative files. There were eighteen PREA allegations reported during 2019. Of these, there was one unsubstantiated sexual assault allegation and

seven sexual harassment allegations that were investigated.

The Lake Region Law Enforcement Center policy closely mirrors the written language of the Prison Rape Elimination Act standards. The audit team held an exit meeting with the Director, Rob Johnson; Captain Kraft, LRCF Supervisor, PREA Coordinator Deidra Brokke; and RCC Operations Manager, Joe Saul.

AUDIT FINDINGS

Facility Characteristics:

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate or resident population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The LRCF was constructed in 1973 and has 17 units consisting of 4 female units (F1, F2, F3 and F4); 2 male segregation units, 3 male general population units (South Unit, North Unit, West Unit); 3 male medium security units (MS1, MS2, MS3); 1 male maximum security unit (Max); and 4 receiving and holding cells. There are two inmate work areas -- the kitchen and the laundry. Administrative areas include one senior staff office, the PREA Coordinator's office/training classroom, the nurse's office, the booking area, the visit area and both the indoor and outdoor recreation areas.

The Lake Region Correctional Facility's purpose is to provide appropriate supervision of persons incarcerated in the correctional facility and to meet their basic human needs. The facility is operated under a joint powers agreement between four counties and overseen by a Board of Directors. Inmates are sent to the facility from the Bureau of Prisons, the U.S. Marshall's, the North Dakota Department of Corrections and Rehabilitation, the four counties of Ramsey, Benson, Eddy, Nelson and the city of Devils Lake.

At the LRCF the inmates are housed based upon needs and their respective level of classification. The staff structure includes one Captain, one Lieutenant, four Sergeants and 12 Full-time Corrections Officers. The LRCF houses minimum, medium and maximum-security inmates, serving federal, state, county and city sentences and holds.

AUDIT FINDINGS

Summary of Audit Findings:

The OAS will automatically calculate the number of standards exceeded, number of standards met, and the number of standards not met based on the auditor's compliance determinations. If relevant, the auditor should provide the list of standards exceeded and/or the list of standards not met (e.g. Standards Exceeded: 115.xx, 115.xx..., Standards Not Met: 115.yy, 115.yy). Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

Number of standards exceeded:	1
Number of standards met:	44
Number of standards not met:	0

The facility has used a team approach to work on implementation of PREA compliance measures over the past several years. The push has been led by the Director and the PREA Coordinator. The facility has a PREA policy modeled directly from the PREA standards. Most importantly, and the audit team witnessed vast improvements both in the physical characteristics of the facility and the professional atmosphere/culture felt since the audit team conducted this facility's audit in 2014.

The inmates report they feel safe. All inmates reported at least two methods of reporting. The facility had posters placed throughout the facility. The inmates stated they had a handbook provided upon intake to refer to throughout their stay. Staff were familiar with how to perform their responsibilities in prevention, detecting and responding to incidents of sexual abuse and sexual harassment. Staff were able to relay to the auditor signs to watch for in inmates who may have experienced sexual abuse or harassment. The staff assigned to monitor for retaliation is aware of the duties necessary to detect and monitor for retaliation. Specialized staff were knowledgeable in their roles and had received specialized training in their areas of expertise.

The auditor determined that both the facilities of the Lake Region Law Enforcement Center, the corrections facility and the reentry center, were exceptional in the corrective action they took regarding the coordinated response. The Lake Region Family Violence Prevention/Sexual Assault Response Team's coordinated response plan is exactly the type of work this standard is looking for – the community working together to address all forms of sexual assault, even if occurring within a correctional environment.

Through the pre-audit and on-site audit processes, the auditor determined that a few minor issues required corrective actions in which the facility took immediate action on. These items were corrected prior to the auditor finishing the interim report. Therefore, a final report was issued.

SUMMARY OF CORRECTIVE ACTIONS

Standard 115.13 Supervision and monitoring.

CORRECTIVE ACTIONS: To meet this standard, the auditor required the LRCF prepare an annual staffing plan and provide it to the auditor.

On July 14, 2020, the LRLEC provided the auditor a comprehensive staffing plan for the correctional facility and the reentry center that meets the requirements of this standard.

Standard 115.15 Limits to cross-gender viewing and searches

CORRECTIVE ACTIONS: To meet this standard, the auditor required one camera for housing area Max2 that needs the black box reinstated to block the view of the toilet. This was corrected immediately and the PREA Coordinator provided the auditor with a photograph verifying the correction on June 10, 2020.

Standard 115.17 Hiring and promotion decisions

CORRECTIVE ACTIONS: To comply with this standard the auditor required the LRCF to include the three questions regarding disclosure of previous sexual misconduct and a statement acknowledging they have a continuing duty to disclose sexual misconduct during the annual review process. The auditor recommends having all current staff sign a new form and then begin anew in 2021 with a form completed during their annual evaluation. Also, the auditor required documentation of all current employees who worked for a prior institutional employer regarding any substantiated allegations of sexual abuse or any resignation during a pending investigation of an allegation of sexual abuse.

On July 9, 2020, the LRCF provided the completed, signed and dated form for all current employees. They will continue to use this form to ask all applicants regarding previous sexual misconduct and their understanding of their continuing duty to report. This form will now also be used each year during the employee's annual evaluation.

On July 16, 2020, the facility provided the auditor the form "Sexual Misconduct Questionnaire for Previous Institutional Employers". This is the form they have incorporated into their hiring process.

Standard 115.33 Inmate education

CORRECTIVE ACTIONS: The auditor required that the facility institute documentation that better identifies the basic PREA information provided during intake. The facility immediately remedied this by adding a statement on the handbook signature form. This new form was provided to the auditor on June 25, 2020. The auditor recommended that the facility more clearly state that they Lake Region Correctional Facility has a zero-tolerance policy regarding sexual abuse and sexual harassment and provide the methods of reporting incidents or suspicions of sexual abuse or sexual harassment. Those are the two most important things the standards require the inmate to know on day one. The modification they originally made stated that they have the right to be free from sexual abuse, sexual harassment or retaliation for reporting, and the specific pages they can find the information on how to report. They sign that they have received the handbook and staff have provided this information to them. The auditor recommends that they devise a method to ensure the inmates watch the video rather than signing a refusal form.

On July 9, 2020, the PREA Coordinator provided a form that better documents the basic information provided to the inmate at intake.

Standard 115.65 Coordinated responses

CORRECTIVE ACTIONS: To become compliant the auditor required the LRCF be more specific in their coordinated response plan.

On July 16, 2020, the LRCF provided the auditor with the Lake Region Family Violence Prevention/Sexual Assault Response Team's coordinated response plan. On page 7 it specifically lists how the team works with the administration of the law enforcement center. This plan is exceptionally written and beginning on page 28 specifically outlines the coordinate response as it relates to the Lake Region Law Enforcement Center's two programs and the Prison Rape Elimination Act. The guiding principles of the team is that services for victims of sexual assault ages 14 and older shall be provided in a coordinated multidisciplinary approach which keeps the welfare of the victim at the forefront of the community's response.

Standard 115.81 Medical and mental health screenings; history of sexual abuse.

CORRECTIVE ACTIONS: To meet this standard, the auditor required that medical staff convey to the auditor how they will document informed consent from inmates before reporting information about prior sexual victimization that did not occur within an institutional setting.

On July 16, 2020, the LRCF provided the auditor with the Lake Region Family Violence Prevention/Sexual Assault Response Team's coordinated response plan. This plan contains an informed consent form that the LRCF has adopted into their procedures.

Standard 115.88 Data review for corrective action

CORRECTIVE ACTIONS: To meet this standard the auditor required a revised 2019 report that includes a comparison of the 2019 data and corrective actions with those from prior years. The report must also provide an assessment of the progress in addressing sexual abuse.

On July 17, 2020, the facility provided a revised 2019 annual report that included a comparison of the data to prior years and an assessment of their progress in addressing sexual abuse. They will repost the 2019 Annual Report to the LRCF's website.

115.11	Zero tolerance of sexual abuse and sexual harassment; PREA coordinator
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The LRLEC has a very thorough policy, PREA Policy 606. The policy follows the guidelines of the PREA standards and they have appointed a PREA Coordinator who has been working to address every standard. She has the authority to develop and oversee the efforts of the facility to prevent, detect, and respond to sexual abuse and sexual harassment. The PREA Coordinator has been committed to complying with all PREA standards in the jail. The Captain assists with PREA compliance efforts within the LRCF.</p> <p>The policy states the facility's zero-tolerance for sexual abuse and sexual harassment. The policy outlines the facility's efforts in preventing, detecting and responding to sexual abuse and harassment. The policy includes all necessary and related defined terms.</p>

115.12	Contracting with other entities for the confinement of inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The LRCF does not contract with other facilities for the confinement of its inmates.

115.13	Supervision and monitoring
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed the LRFC PREA policy, the organization chart, verified the staffing levels through the schedule that was provided and verified through direct observation while on the facility tour. The LRFC has strong leadership, a good training program, and a positive culture. There are documented, unannounced rounds conducted by intermediate and higher-level supervisors. The agency has a PREA policy that prohibits staff from alerting other staff members that these supervisory rounds are occurring, unless such announcement is related to the legitimate operational functions of the facility. There are multiple cameras throughout the facility that are monitored by dispatch and in the booking area.</p> <p>At the time of the on-site portion of the audit there was no Annual Staffing Plan. LRFC has one Captain, one Lieutenant, one Senior Sergeant, three Sergeants and 14 Corrections Officers. There are always, at a minimum, three direct care staff on duty 24 hours each day.</p> <p>CORRECTIVE ACTIONS: To meet this standard, the auditor required the LRFC prepare an annual staffing plan and provide it to the auditor.</p> <p>On July 14, 2020, the LRLEC provided the auditor a comprehensive staffing plan for the correctional facility and the reentry center that meets the requirements of this standard.</p>

115.14	Youthful inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	This LRCF does not house inmates less than 18 years of age.

115.15	Limits to cross-gender viewing and searches
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The LRCF prohibits male staff from conducting cross gender searches of female inmates. Female inmates' access to regularly available programming or other out-of-cell opportunities is not restricted. All interviews with both inmates and staff confirmed the practice. The policy prohibits examination for the sole purpose of determining gender and staff are knowledgeable of correct search procedures as confirmed through interviews. Staff are adequately trained in searches of lesbian, gay and bi-sexual inmates, and such training is required by their policy.</p> <p>Unclothed searches upon intake are completed one-on-one between staff and inmate in a private restroom in the booking area that is off camera. This is not a good practice. When this was brought to the attention of the LRCF administration they immediately corrected and on 5/18/20 they provided the auditor their notice to staff that moved the search area from the restroom to the shower area where the inmate can remain privately off-camera and the staff can stand a couple of feet away but on camera.</p> <p>Inmates shower in private shower stalls with shower curtains to provide privacy and to prevent observation by staff of the opposite gender or casual observers. Some sleeping rooms have toilets within the room and the toilet area is blocked out by a digitally placed black box. There was one camera for housing area Max2 that need the black box reinstated.</p> <p>Based on agency staff and inmate interviews, staff members of the opposing gender announce their presence when entering units where the probability exists that the inmate may be changing clothes. The auditor witnessed the announcement and it appeared to be a standard practice.</p> <p>CORRECTIVE ACTIONS: To meet this standard, the auditor required the black box on one camera for housing area Max2 be reinstated to block the view of the toilet. This was corrected immediately and the PREA Coordinator provided the auditor with a photograph verifying the correction on June 10, 2020.</p>

115.16	Inmates with disabilities and inmates who are limited English proficient
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The LRCF will provide PREA information to all inmates with disabilities including inmates who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities so that they have an equal opportunity to participate in or benefit from all aspects of jail's efforts to prevent, detect, and respond to sexual have access to use the interpretive service for all communications other than day-to-day routine communication. There were no non-English speaking inmates, inmates who were deaf or hard of hearin, blind or needed assistance at the facility during the audit. The jail will provide basic PREA information verbally to inmates who are blind, those who have intellectual, psychiatric, or disabilities. They provide written information to inmates who are deaf or hard of hearing or if required, they will provide an ASL interpreter. The LRCF uses the Language Link for translation services.</p>

115.17	Hiring and promotion decisions
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed personnel records and staff hired over the reporting period had the required background checks. They are aware of the policy to run every five years. They are asking recent interviewees the three questions required by the standard regarding any previous misconduct and a continuing duty to report. This was verified through a review of personnel files. However, they do not ask these questions again during the annual review/performance evaluation. In a review of files, the auditor did not find record of a check with all previous institutional employers regarding substantiated allegations of sexual abuse.</p> <p>CORRECTIVE ACTIONS: To comply with this standard the auditor required the LRCF to include the three questions regarding disclosure of previous sexual misconduct and a statement acknowledging they have a continuing duty to disclose sexual misconduct during the annual review process. This is the form they have incorporated into their hiring process.</p>

115.18	Upgrades to facilities and technologies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The administrators consider the ways in which monitoring technology can enhance their efforts and abilities to protect inmates from sexual abuse through electronic monitoring and video monitoring. They have camera systems in all key areas. Additionally, since the last audit they have added a few cameras in key areas to improve security and safety of inmates. The cameras are now monitored in the dispatch area as well instead of by the staff in booking.</p>

115.21	Evidence protocol and forensic medical examinations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The PREA Coordinator has been trained through both the NIC PREA investigator training and the North Dakota Department of Corrections and Rehabilitation investigator training on how to conduct administrative investigations. All criminal allegations are turned over to the Devils Lake Police Department for investigation. Victims of sexual abuse have access to forensic medical exams through Safe Alternatives for Abused Families (SAAF) in Devils Lake. SAAF has a forensic exam room at their facilities and employ and provide training for the SANE. The facility has an MOU with SAAF for services. Devils Lake Police Department is contacted to investigate criminal allegations – both sexual abuse and staff sexual misconduct allegations. When they respond, evidence protocol including offering a victim advocate is followed.</p>

115.22	Policies to ensure referrals of allegations for investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility refers all allegations for investigation. The LRCF investigations were completed by qualified investigators and required documentation and reporting occurred. The Devils Lake Police Department investigator that has received specialized training conducts criminal investigations. These steps are properly documented in the PREA policy. The entire PREA policy (which includes the investigative policy) is posted on their website. However, it is listed on the link "Prison Rape Elimination Act". The auditor initially was not able to find it because it appeared that this was a link to the Act itself. The auditor recommended that the format of their webpage be changed so that it is easy to locate the investigative policy on their website. The LRCF spoke with their tech support to schedule this change.</p>

115.31	Employee training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>PREA training with staff was apparent during the interviews as staff were very knowledgeable in the required competencies such as the correct first responder response – separate, provide care, protect evidence, call for assistance, notify shift supervisor and provide a written report. Staff were knowledgeable in how to recognize signs of sexual abuse and how to communicate effectively with LGBTI inmates. Documentation included NIC training “PREA: Your Role Responding to Sexual Abuse”, in-house training titled “The Daily Dozen” which discusses how to avoid inappropriate relationships with inmates, in-house training presented by the PREA Coordinator that explains PREA and the staff’s role in prevention and response at LRCF, in-house training on the LRCF Integrity Guidelines which includes the prohibition of talking to inmates in a derogatory or offensive manner, North Dakota Correctional Officer training which includes sections on PREA. Staff had signed attendance rosters and certificates.</p>

115.32	Volunteer and contractor training
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility provides PREA training to all volunteers. The auditor viewed and verified documentation of training that has been provided. The auditor spoke with a volunteer who was able to state that facility's zero-tolerance policy and the appropriate actions to take if an inmate reported sexual abuse or harassment.

115.33	Inmate education
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The inmates receive a handbook on the day of arrival that outlines important PREA information, and this is pointed out to them during intake. The inmate signs that they have received the handbook, but this does not necessarily document that the staff went over the required information with them. The facility immediately remedied this by adding a statement on the handbook signature form. Now the inmate signs a statement that they have the right to be free from sexual abuse, sexual harassment or retaliation for reporting, how to report and sign that they have received the handbook that also has the rules and the reporting information. This information will soon go on the kiosk as well. There are posters posted throughout the facility. The interviews confirmed that inmates were well aware of how to report and were familiar with multiple ways to report. The LRCF has a video to provide a more in-depth PREA curriculum for inmates that is presented within 30 days of intake on the kiosk within the housing unit. However, many of the male inmates sign a refusal form stating that they are refusing to watch the video. In speaking with the PREA Coordinator, she states that many of them report having seen the video at other facility's and do not want to watch it again. The auditor recommends working with their vendor for the kiosk system to see if there is a way to require the video be watched as soon as they sign onto the kiosk before going forward.</p> <p>CORRECTIVE ACTIONS: The auditor required that the facility institute documentation that better identifies the basic PREA information provided during intake. The facility immediately remedied this by adding a statement on the handbook signature form. This new form was provided to the auditor on June 25, 2020. 115.34	Specialized training: Investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>LRLEC staff members who conduct investigations receive training and the curriculum meets the specialized training requirements. There is documentation of when and who received the training. The PREA Coordinator for the LRCF is a trained facility investigator to conduct administrative investigations. This was verified both through a review of documentation and an interview. All criminal allegations are turned over to the Devils Lake Police Department for investigation. The auditor interviewed the criminal investigator and found her experience and skills were superb in addressing criminal sexual abuse investigations for the LRLEC.</p>

115.35	Specialized training: Medical and mental health care
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The nurse for the LRLEC has completed the specialized training through NIC “PREA: Medical Health Care of Sexual Assault Victims in a Confinement Setting” on June 12, 2019 and was knowledgeable during the interview. The LRELC does not provide in-house mental health services. Inmates are referred to a provider at the Lake Region Human Services Center for mental health care. However, the nurse has also completed the NIC course “PREA: Behavioral Health Care for Sexual Assault Victims in a Confinement Setting” on June 11, 2019.</p>

115.41	Screening for risk of victimization and abusiveness
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor based compliance on a review of the PREA policy, the Inmate Classification policy, interviews with staff and inmates, and a review of the LRCC's PREA Screening Forms. The LRCF Inmate Classification Policy 507 requires intake staff to screen all offenders during the booking process but no later than 24 hours after intake into LRCF and before being assigned to a housing unit. The intake officer uses a screening tool which specifically asks all screening indicators as required by the standards such as age, criminal record, and prior identified history of sexual victimization or predation to determine if the offender is at risk of future victimization or sexual abuse, or is at risk of committing sexual abuse. The intake procedure requires a screening within 24 hours of arriving at LRCF. The screening is conducted for potential mental and physical vulnerabilities which could jeopardize safety and/or sexually aggressive behavior. The PREA Coordinator reviews the inmate's classification status if they have been at the LRCF for 30 days. There was a delay of a few during the COVID 19 crisis, but they soon were caught up. She examines changes in the inmate's behavior or circumstances. Inmates who are transgender or intersex are reassessed at least twice each year. Inmates are also reassessed if referred, requested by a staff member, there is an incident of sexual abuse or there is receipt of any other information that increases the inmate's risk of sexual victimization or abusiveness.</p>

115.42	Use of screening information
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>LRCF staff use the screening information to determine placement within their housing unit – ensuring that known aggressors are not placed with potential victims. LRCF staff state all housing assignment are done on a case-by-case basis considering the inmate’s own views of safety. All inmates shower separately from other offenders. The LRCF implements appropriate controls on the dissemination of responses to screening questions asked pursuant to this standard to ensure that sensitive information is not exploited to the offender’s harm by staff or other offenders. During the interviews staff were knowledgeable of this PREA standard.</p>

115.43	Protective Custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>LRCF staff typically find alternative housing units that provide protection for the inmate without segregating or isolating them. If they use protective custody, it is for very limited duration only until they can find appropriate housing. This was confirmed through staff and inmate interviews. They have not used protective custody over the past 12 months for this purpose.</p>

115.51	Inmate reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The agency has established procedures allowing for multiple ways for inmates to report privately to facility staff about sexual abuse or sexual harassment, retaliation by other inmates or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Staff accepts reports made verbally, in writing through resident request forms, anonymously, and from third parties. The staff promptly documents any verbal reports. Inmates can report allegations to someone outside of the facility by contacting Safe Alternatives for Abused Families (SAAF) in Devils Lake. The auditor spoke with the executive director at SAAF to verify that they will offer victim support services, but will also report back to the LRCF, allowing the inmate to remain anonymous if they wish. All inmates were very aware of how to contact SAAF. Inmates reported feeling comfortable reporting to staff.</p>

115.52	Exhaustion of administrative remedies
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The LRCF formal administrative procedures are in policy 609 – Inmate Grievances. Section 609.6 addresses inmate grievances regarding sexual abuse. Inmates are encouraged to report at any time. There are no set time frames for reporting sexual abuse and an inmate may report at any time, to any person via multiple ways. Inmates are encouraged to report directly to staff members, but that if they do not feel comfortable in doing this they may report to SAAF, the local abuse advocacy center in Devils Lake. An inmate does not have to exhaust one method of reporting before being allowed to employ another method to obtain action.</p>

115.53	Inmate access to outside confidential support services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Inmates have access to outside confidential support services. The facility has an MOU agreement with the Safe Alternatives for Abused Families (SAAF) in Devils Lake for advocacy services. The nurse stated she would make recommendations for inmates to speak and any follow-up services with the mental health professional at the Lake Region Human Services Center.

115.54	Third-party reporting
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility has third-party reporting information available on their website. However, it is under a link titled “Zero Tolerance Policy” and the auditor found it difficult to locate. The auditor suggested relabeling the link “Zero Tolerance Policy/To Make a Report” so that it is easier to locate the third-party reporting information. The LRCF spoke with their tech support to schedule this change.</p>

115.61	Staff and agency reporting duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility requires all staff to immediately report any knowledge, suspicion or information received related to sexual abuse/harassment incidents, retaliation and staff negligence that may have contributed to such incidents. Staff are required to make such reports to the staff supervisor and a report is submitted to the investigator. Random staff interviews confirmed their responsibility to report and to maintain that information in confidence. The PREA policy requires that outside investigators be informed when there is suspected criminal activity. It was evident policy was followed through the investigative reports as well.</p>

115.62	Agency protection duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility requires all staff to take immediate action to protect the inmate from imminent sexual abuse. The facility has had no reported incidents over the past reporting period in which an inmate was subject to risk of imminent sexual abuse. Interviews confirmed compliance with expected practices. Administrators and direct care staff understood and agreed that “immediate” means when the response is needed – that could mean within minutes if the abuse was recent or it could mean before the end of the shift for incidents in which an abuse was reported that occurred in the distant past.</p>

115.63	Reporting to other confinement facilities
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Interviews with the senior-level staff confirm actions that are taken upon receiving an allegation of sexual abuse while an inmate was at another facility. Such action is initiated no later than 72 hours and action is documented. These steps were also noted in the review of policies and procedures. There was one incident reported during this past reporting period from another facility and one incident reported to another facility. Both incidents were properly documented.

115.64	Staff first responder duties
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Interviews with staff verified their process to provide assistance, separate alleged victim/abuser, preservation and protection of evidence by securing the scene including the request of the victim not to take any actions that could destroy any physical evidence. There was one incident of reported abuse over the reporting period and correctional officers responded appropriately. The incident was investigated and was unfounded.

115.65	Coordinated response
	Auditor Overall Determination: Exceeds Standard
	Auditor Discussion
	<p>The LRCF has coordinated actions to be taken when an incident occurs that are outlined within their PREA policy. However, the auditor recommends that either a separate coordinated response plan or more in-depth information in policy be added that specifies the name of the hospital, the advocacy organization and the law enforcement agency who investigates.</p> <p>CORRECTIVE ACTIONS: To become compliant the auditor required the LRCF be more specific in their coordinated response plan.</p> <p>On July 16, 2020, the LRCF provided the auditor with the Lake Region Family Violence Prevention/Sexual Assault Response Team’s coordinated response plan. On page 7 it specifically lists how the team works with the administration of the law enforcement center. This plan is exceptionally written and beginning on page 28 specifically outlines the coordinate response as it relates to the Lake Region Law Enforcement Center’s two programs and the Prison Rape Elimination Act. The guiding principles of the team is that services for victims of sexual assault ages 14 and older shall be provided in a coordinated multidisciplinary approach which keeps the welfare of the victim at the forefront of the community’s response.</p>

115.66	Preservation of ability to protect inmates from contact with abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The administrators will remove alleged staff sexual abusers from contact with inmates pending the outcome of the investigation. The facility does not employ represented (union) employees. The facility is not restricted in any way from protecting inmates from contact with abusers.</p>

115.67	Agency protection against retaliation
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The PREA Coordinator is charged with monitoring for retaliation. She is assisted by the Captain who has direct knowledge of any disciplinary issues. Should any person who cooperates with a sexual misconduct investigation express fear of retaliation; appropriate protective measures will be taken. Retaliation monitoring will be discontinued should the allegation be unfounded. Measures include housing changes, removing contact of alleged staff/inmate abusers and emotional support services for those who fear retaliation. Interviews with the PREA Coordinator confirmed her duties and responsibilities. These steps are properly documented in the PREA policy. The PREA Coordinator documents monitoring and follow-up with inmates when they check-in to ensure that there is no retaliation.</p>

115.68	Post-allegation protective custody
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	LRCF staff typically finds alternative housing units that provide protection for the inmate without segregating or isolating them. If they use protective custody, it is for very limited duration only until they can find appropriate housing.

115.71	Criminal and administrative agency investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor reviewed the documented investigations at the LRCF and determined all standards are being properly followed for both administrative and criminal investigations. A documented outcome must be reported back to the inmate. Through interviews with the investigators it was determined that investigations are not terminated should the source of the allegation recant. Should criminal prosecution be considered, the investigator coordinates with the prosecutor. Polygraph tests are not used during their investigations. Administrative investigations will include efforts to determine whether staff actions/failures contributed to the abuse documented through written reports, which will include physical/testimonial evidence, credibility assessments and investigative facts and findings. All written reports will be retained for as long as the alleged abuser is incarcerated or employed by the facility plus five years. Investigations will not be terminated due to the departure of an alleged abuser or victim. These steps are properly documented in the PREA policy.</p>

115.72	Evidentiary standard for administrative investigations
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The facility uses no standard higher than a preponderance of evidence in making a determination of alleged sexual abuse/harassment. This was confirmed through the interviews with the investigator and a review of investigative files.

115.73	Reporting to inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	There was only one case that required the inmate to be notified and the inmate released prior to the end of the investigation. The auditor reviewed the notice documentation for this case. If they were unable to notify an inmate, it was because of release from the facility prior to the conclusion of the investigation and they documented this as well.

115.76	Disciplinary sanctions for staff
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed staff and the investigator and reviewed PREA policy. Staff are subject to disciplinary sanctions up to and including termination for violating agency sexual abuse or sexual harassment policies. Termination is the presumptive disciplinary sanction for staff who have engaged in sexual abuse. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are reported to law enforcement, unless the activity was clearly not criminal, and to the North Dakota Department of Corrections and Rehabilitation. The cases reviewed that occurred both at the LRCF and the Residential Reentry Center confirm that staff disciplinary sanctions were appropriate.</p>

115.77	Corrective action for contractors and volunteers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Contractors and volunteers are subject to disciplinary actions including termination for violation of facility sexual abuse/harassment policies. According to the Director, should any violation of this type be substantiated, the facility has complete authority to administer remedial measures including prohibiting further contact with inmates. They also verified that if disciplinary measures are required, it could also include a report to the Devils Lake Police Department.</p>

115.78	Disciplinary sanctions for inmates
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility prohibits disciplinary action for a report of sexual abuse made in good faith based upon a reasonable belief that the alleged conduct occurred. The LRCF would work with the Lake Region Human Services Center or the referring agency (BOP, NDDOCR) to provide counseling, or other interventions designed to address and correct the underlying reasons or motivations for abuse. If findings of inmate-on inmate sexual abuse, administrative sanctions will be administered following the formal disciplinary processes and applied commensurate with the level of infractions.</p>

115.81	Medical and mental health screenings; history of sexual abuse
	<p data-bbox="252 170 896 203">Auditor Overall Determination: Meets Standard</p> <p data-bbox="252 248 523 282">Auditor Discussion</p> <p data-bbox="252 327 1465 528">The auditor interviewed staff and reviewed policy. If inmates disclosed victimization on their screening, staff would ensure the inmate is offered a follow-up meeting with medical. Medical staff were not aware of the requirement to obtain a written informed consent form before reporting information about prior sexual victimization that did not occur within an institutional setting.</p> <p data-bbox="252 573 1469 685">CORRECTIVE ACTIONS: To meet this standard, the auditor required that medical staff convey to the auditor how they will document informed consent from inmates before reporting information about prior sexual victimization that did not occur within an institutional setting.</p> <p data-bbox="252 730 1449 842">On July 16, 2020, the LRCF provided the auditor with the Lake Region Family Violence Prevention/Sexual Assault Response Team’s coordinated response plan. This plan contains an informed consent form that the LRCF has adopted into their procedures.</p>

115.82	Access to emergency medical and mental health services
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>Emergency medical response was not needed during the review period. The PREA policy documents PREA requirements for access to emergency medical and mental health services. Emergency services would be provided by Mercy Hospital. The LRCF would coordinate with the Lake Region Human Services Center or the referring agency (BOP, NDDOCR) to provide mental health services. Emergency medical and mental health services are provided without charge to inmates.</p>

115.83	Ongoing medical and mental health care for sexual abuse victims and abusers
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The PREA policy requires on-going treatment be provided. A review of facility practices strongly indicates that on-going treatment, and the timeliness of responses are consistent to the level of community care. Offender victims of sexual abuse while incarcerated are offered tests for sexually transmitted infections as medically appropriate. Treatment services are provided to the victim without financial cost and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident.</p>

115.86	Sexual abuse incident reviews
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed staff and reviewed investigative files. There was only one incident that required a review per the standard. The incident was reviewed and documented through a narrative report. This incident did not necessitate the answering of the questions regarding motivation. They did document that they discussed monitoring technology. The auditor recommends that rather than a free-flow narrative report they use some type of incident review form so that all questions are asked during the review process – change in policy or practice, motivation, physical barriers, staffing levels and monitoring technology.</p>

115.87	Data collection
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The facility collects uniform data for all allegations of sexual abuse based on incident reports and investigation files and participates in the Survey of Sexual Violence. The auditor interviewed the Director and the PREA Coordinator and reviewed the PREA policy, the investigative files and reviewed the aggregate data and annual reports. LRCF maintains, reviews, and collects data as needed from all available incident-based documents, including reports, investigation files, and sexual abuse incident reviews. The LRCF does not contract for the confinement of its inmates.</p>

115.88	Data review for corrective action
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The auditor interviewed the Executive Director and the PREA Coordinator, reviewed the PREA policy, investigative files and the aggregate data and annual reports on the LRCF’s website for 2014, 2015, 2016, 2017, 2018 and 2019. The annual report with the aggregate data should include a comparison of the current year’s data and corrective actions with those from prior years and provide an assessment of the progress in addressing sexual abuse.</p> <p>CORRECTIVE ACTIONS: To meet this standard the auditor required a revised 2019 report that includes a comparison of the 2019 data and corrective actions with those from prior years. The report must also provide an assessment of the progress in addressing sexual abuse.</p> <p>On July 17, 2020, the facility provided a revised 2019 annual report that included a comparison of the data to prior years and an assessment of their progress in addressing sexual abuse. They will repost the 2019 Annual Report to the LRCF’s website.</p>

115.89	Data storage, publication, and destruction
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	Data collected is retained via limited access and beginning 2014, it is retained for at least ten (10) years as outlined in the policy. The aggregate data is posted on their website at http://www.lrlec.org .

115.401	Frequency and scope of audits
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	<p>The LRCF has been audited in 2014, 2017 and now again in 2020. The auditor had complete access and observed operations in every area of the LRCF. The auditor requested many documents throughout the audit process and through the 45-day period prior to issuing this final report. The LRCF staff were very cooperative throughout the audit process. The LRCF provided private accommodations to conduct interviews. The auditor notices were posted throughout the facility. The auditor received no correspondence or requests for interviews. The staff at the LRCF were more than accommodating and have an intent and desire to comply with all PREA standards. The auditor noticed very significant improvements since conducting the first audit in 2014.</p>

115.403	Audit contents and findings
	Auditor Overall Determination: Meets Standard
	Auditor Discussion
	The LRCF has published on their website at http://www.lrlec.org the final audit reports from 2014 and 2017.
